Passionate Web Developer and Assistant Lecturer with over 10 years of experience in agency, media, and academic environments. Specializing in WordPress, PHP, and frontend development with a strong focus on clean, maintainable code and user-centered design. Known for blending technical expertise with clear communication – ideal for both development teams and learner-focused environments. Actively seeking a remote opportunity in either development or tutoring, where I can contribute with both my hands-on experience and teaching skills.
